

WINTER FUN

Look outside,
It just started to snow!
Grab your mittens and snowsuit,
It's time to go!

Time to build a giant snowman
And add a carrot for his nose.
You can even add a hat
And some funny looking clothes!

Time to make some snow angels
And run around in delight.
Time to build a fortress
And have a snowball fight!

Time to get your old sled out
And slide down the mountain with glee,
As you avoid falling out
And hitting every tree!

Winter is also the time
To go skating on the ice.
You can ever learn to do a jump,
That would be very nice.

You can catch snowflakes with your tongue
And count them as they fall from the sky.
You can roll around in the snow
Without worrying about staying dry.

Winter has many carnivals
With games and fun things to do.
You can play hockey with friends
Or you can get your face painted too!

You can go snowshoeing in the forest
And look at the beautiful view.
Or you can go skiing down the mountain,
It's all up to you.

You see, winter is all about joy
And getting outside in the fun.
But after a long, cold day
You may want to share a warm treat with
someone!

So curl up by the fire,
And dry your trembling feet.
Go make yourself a hot chocolate,
And make it extra sweet!

HAPPY WINTER EVERYONE!
